SCOPE
This training is intended to meet the requirements set out in Table A-VI/1-1 of the STCW Code. The greatest and most immediate threat to life in the event of abandoning ship is cold exposure. Precautions to protect against it, together with knowledge of survival equipment and its use, is the main message of this training. Other problems that a survivor will encounter are covered so as to ensure the highest possible chances of survival.

AIM
To give seafarers the essential education and training in personal survival techniques meeting the Knowledge, Understanding and Proficiency (KUP) requirements set out in the following:

Table A-VI/1-1

Function: Personal survival techniques
Competence: Survive at sea in the event of a ship abandonment

ENTRY REQUIREMENTS
The learner must be at least 16 years of age to be issued with a Certificate of Proficiency. In exceptional circumstances where the learner is physically able and fit they may be able to complete the training course prior to her/his 16th birthday.

Training centres must ensure, through pre-course information and screening, that learners are fit to participate in all aspects of the training. In particular, they must be made aware of the practical aspects of the training and the physically demanding nature of some of the exercises. If there is any doubt as to an individual’s ability to participate in such exercises an appropriate risk assessment should be carried out to determine what is required in order to proceed in a safe manner. Training centres may consider utilising the UK ENG1 medical certificate, or equivalent, as an indicator of fitness.

PRE-REQUISITES
For the issue of a Certificate of Proficiency in Personal Survival Techniques you must:

(a) Be at least 16 years of age
(b) Successfully complete MCA-approved training in Personal Survival Techniques, meeting the standard of competence specified in Section A-VI/1-1 of the STCW Code.
